PROJECTS

Time Sheet Management System project at Maeko Tech

- Helped create a computer program to track work hours and tasks better.
- Worked with a team to design easy-to-use screens for people to log their work time.
- Made a system that saved time by 30% because people didn't need to track work on paper.

50 Project in 50 days code challenge (06/2023 - 08/2023)

- Recently complete a 50-day JavaScript project challenge to strengthen proficiency in web dev
- Building projects using HTML, CSS, and JavaScript to enhance hands-on coding skills
- Here is all project repo link - <https://github.com/Ankur1326/50JavaScriptProjectsIn50Days>

EDUCATION

Higher Secondary Certificate (PCM)

Rajasthan Public Sr. Sec. School, Chirawa

Chirawa, Jhunjhunu

Full Stack Web Dev (MERN)

PW Skills

12/2022 - Present

online

Enrolled in comprehensive MERN Stack course on PWSkills to develop practical skills in web application

- Project repo link - <https://github.com/Ankur1326/PW-course-practice-and-challenges>
